

DynaStage™

Factory-Assembled,
Performance-Assured™
Perforating Systems

DYNASTAGE CHANGES THE GAME

NEXT GENERATION PERFORATING

DynaStage enables unmatched reliability and effectively eliminates perforating misruns. Our certified technicians custom-build DynaStage to meet your specifications for phasing, shot density, and charge type. Each gun is quality tested prior to delivery, and can be re-tested at the well site using the DynaStage Surface Tester. Our commitment to quality and safety has greatly reduced lost-time mishaps, mis-runs, and misfires.

Infinity Surface Tester

Reduce the chance of lost time by safely checking perforating guns on the surface.

Infinity Firing Panel

Streamlined design for faster and more reliable perforating operations - simply dependable.

DynaStage Integrate Switch-Detonator

Intrinsically safe, plug-n-go: eliminating the need for wiring and crimping.
